PremiumCut - one cut ahead

MediCut Premium - precision that lasts. Cut after cut.

Medicon PremiumCut stands for surgical scissors that impress with their exceptional cutting performance, stability and balance. Suitable for daily use in the operating theatre, where reliability and durability are expected.

The specially refined material ensures a long-lasting sharp cutting edge without the need for carbide inserts. The result: consistent performance, reduced wear and a significantly longer service life - made by Medicon.

Advantages:

- Up to three times longer cutting performance compared to standard surgical steel scissors without carbide inserts
- The specially refined material reduces the risk of breakage – even with fine tips or frequent use – no risk due to weld seam or insert breakage
- Consistent cutting quality, unchanged precision even after frequent use
- And if necessary, the scissors can be repaired multiple times without any loss of performance
